

Man, It Is As It Must Be

Take a naked carrot, eat it
Let it sink in slow
Let it sit down in your belly
Everybody know
Television ads would tell you
All they feed is good
Make you fat to fill their pockets
Don't believe a word

All the world they love their warring
Though they know the rules
Sell us guns to kill each other
Take us for a fool
All the world they loves a lover
Lock their woman back
Look at me am I another
Another loving Jack?

Politicians stand corruption
Hide behind the law
Working man got no protection
Struggle on the floor
Income tax he try to kill me
Do his legal bit
Grab his pound of rotting flesh
For governmental shit
