

Man, Sudden Life

Please don't look at me
It makes me uneasy though I don't really care
Please don't look at me
You're playing with fire don't you know it's unfair

Watch you don't touch me
And see I'm along without an ache in the deep
And see you don't touch me
Don't take me away from the things that I feel

And don't ever stop me
Speaking the words I was hearing before
Don't ever stop me
Leave me alone when I'm busy to score
