

# Man, The Thunder And Lightning Kid

Paid my bills now I'm on the run  
Had my pills gonna have some fun  
But the law smoking killer-weed  
Lawman saw, bust me, watch me bleed

Cool breeze blowing, sky is splitting apart  
Looks like things are turnin' real weird  
Christ where's Jesus? I need somebody here

Lightning crash and thunder roll  
Jesus get me out this hole  
Freedom's just a word to me  
Sherriff blind-eyes, let me be

Cool breeze blowing, sky is splitting apart  
Looks like things are turnin' real weird  
Christ where's Jesus? Looks like somebody else  
Cut his hair and shaved his beard

Cool breeze blowin'  
Inside of my heart

Well I don't need trouble, best keep clear  
Seeing double, where's the kid?  
The fuzz are lying around the floor  
I guess they're seeing, what I just saw

Cool breeze blowing, sky is splitting apart  
Looks like things are turnin' real weird  
Christ here's Jesus, Looks like somebody else

Kid came down, took the law apart  
Always knew that boy got heart  
Seems there is a Mr Big  
Like a thunder and lightning kid

Cool breeze blowing, sky is splitting apart  
Looks like life is gonna be weird  
There goes Jesus, Looks like somebody else
