

# Manchester Orchestra, The River

I will fight the spirit  
With a sword in my side  
She found a way out  
Crack my rib  
Wait to die  
I think I know you best when I sleep  
I think I know everything  
Me and my brothers  
We have tongues sharp as knives  
I found a way out  
Make a noise, close your eyes  
I think I talk to you best when I sing  
I sing about almost everything  
Oh god I need it  
So let me see again  
Take me to the river  
And let me see again  
Oh my god  
Let me see again  
Oh my god  
Let me see again  
Let me see again  
Grace taught her daughter  
Daily on  
God how I feel it  
Fed her pride to your feet  
I'm gonna leave you the first chance I get [4x]  
Oh god I need it  
I was wrong again  
Take me to the river  
And make me clean again  
Oh my god  
Make me clean again  
And oh my god  
Let me see again
