

# Mandalay, This Time Last Year

When when I met you  
Evidently  
You knew  
Underneath your kiss  
I was fooled  
Evidently  
Seems without you  
I'm folding  
This time last year, you were here  
This time last year, you were here  
This time last year, you were here  
Said I missed you  
How can I choose  
Tell me shut up and do something  
Without you here i'm in two  
Cutting into  
Scenes without you  
Unfolding  
This time last year, you were here  
This time last year, you were here  
This time last year, you were here  
In all my innocence  
I'm running 'round  
In circles you won't allow  
Against your bittersweet indifference tears  
I'm running 'round  
This time last year, you were here  
This time last year, you were here  
This time last year, you were here
