

Mandaryna, Good Dog Bad Dog

I ain't afraid of you
Or what you wanna do
You wanna make me pay
In every single way
and every one of you
Do what you gotta do
You had to take me up
So you could shoot me down
Who the lover
What the lover
What do you know
Is it true she getting hotter
Heard it playing on the radio

Who the lover
What the lover
What do you know
Did you see her getting fatter
Saw her dying on a TV show

I ain't afraid of you
Or what you wanna do
You wanna make me pay
In every single way
and every one of you
Do what you gotta do
You gotta run your way
So you can get your pay

When the lot of you didn't expect it
I'm bangin the drum
Yeah respect it
I been rejected and oh so neglected
See the ladies when they get hectic
Keep the stereo big don't correct it
Cos I'm jammin the beat so connect it
You been elected so keep it injected
Everybody's getting infected

Good dog good dog
bad dog bad dog

Who the lover
What the lover
What do you know
Is it true she getting hotter
Heard it playing on the radio
Who the lover
What the lover
What do you know
Did you see her getting fatter
Saw her dying on a TV show

I ain't as tough as you
You know I know it too
The more I'm on my knees
The more you wanna squeeze

So every one of you
Do what you gotta do
You gotta keep it grim
It's either sink or swim

When the lot of you didn't expect it

I'm bangin the drum
Yeah respect it
I been rejected and oh so neglected
See the ladies when they get hectic
Keep the stereo big don't correct it
Cos I'm jammin the beat so connect it
You been elected so keep it injected
Everybody's getting infected
Good dog good dog
bad dog bad dog
