

# Mandee, Over My Head (ft. Thomas Daniel)

I should have known it come to this  
I should have known it  
I should have known it  
Why did I ever let you in?  
I couldn't hold it  
Couldn't control it

I thought this was something more for you  
something more  
But you  
Trying all cry out  
Did you?

Coz you've got me  
I give my heart away  
I'm in

....  
And I cannot escape

No, I cannot escape  
You've got me  
On and on  
Over my head

So tell me how it's happen now?  
When did it started?  
Where did your heart beat?  
Why all it tumbling down  
You left me,
