

Mando Diao, Mean Street

Let me take you for a ride
far away from the upper side
we're going down to the mean street
Johnny's got a brand new 38
he thinks it's gonna cure his hate
Ah it's all done in the mean street
It's the state of grace
and It's all done in the mean street
Take my hand and close your pretty eyes
cus it's gonna hurt so much when summer hits
New Nork sky
oh no, it's all done in the mean street
God I love this stormy cloud
Where all nasty girls they like it loud
It's all good in the mean streets
Diane had her grand debut here
Michael couldn't even tell if it was
pleasure or fear
It's all done in the mean street
and It's my little state of grace
It goes down in the mean street
Take my hand and close your pretty eyes
cus it's gonna hurt so much when summer hits
New York sky
oh no, it's all done in the mean street
The heights, the sights, the green, the
scarred
the easy way of doing everything hard,
the fashion
Oh I hate that street with... passion
Take my hand and close your pretty eyes
cus it's gonna hurt so much when summer hits
New York sky
oh no, it's all done in the mean street
it's all done in the mean street
it's all done in the mean street
