

# Mandragora Scream, Cryin' Clouds

I know the hero  
I know the omens turn to fight  
losin' forever your self cry and burnin' high  
Hell and Heaven, open the doors over the light  
lookin' for somethin' that can take away your pride  
I know the hero  
I know the castle burns on fire  
come and help me  
now that your faith can save my life  
now give me your light, you're the hero of my mind  
Angels are cryin'  
while their wings are flying high  
towards the twilight  
where they try to find their sight  
A universal mind...  
ever and ever comes to life,  
can you forever...  
ever and ever come inside?  
I know the hero  
I know the castle burns on fire  
come here and save me  
now that your light can rape my mind  
come here and help me...  
you're the hero of my time  
I know the hero  
my mind and my heart burst on fire...  
come here and save me  
you're the hero of my mind...
