

Mandragora Scream, Cryin' Clouds

I know the hero
I know the omens turn to fight
losin' forever your self cry and burnin' high
Hell and Heaven, open the doors over the light
lookin' for somethin' that can take away your pride
I know the hero
I know the castle burns on fire
come and help me
now that your faith can save my life
now give me your light, you're the hero of my mind
Angels are cryin'
while their wings are flying high
towards the twilight
where they try to find their sight
A universal mind...
ever and ever comes to life,
can you forever...
ever and ever come inside?
I know the hero
I know the castle burns on fire
come here and save me
now that your light can rape my mind
come here and help me...
you're the hero of my time
I know the hero
my mind and my heart burst on fire...
come here and save me
you're the hero of my mind...
