

Mandragora Scream, Ianonman Iibich Vampires

Ianonman iibich live, live,
Bloodied be hinloa samuoan
Lie mother my sufferin', stronger is my mind
Layin' my words so brave, sweet, so...
(never life so far)
Slaves of our passion, we drown deepin' in sighs
Please, we want our death like dew
Leave our mind to decide
Terrible past flowin' in these veins
Waitin' for silence that drives us insane
Mercy in your eye, nightmares on lips
Macabre damsels slaves of these gems
Ianonman iibich live, live
Bloodied be hinloa samuoan
Swallowin' our deadly dreams,
gloomy memories back to me
Mildly in agony we wait
(never life so far)
All nightfall our knowledge
became like a fadin' rain
still dark roses like a dew
Everytime we may fall enslave
Drained of blood, merely death
now we are demond of our death
Spells on the rain marries our love
melodies will not die in our veins
Melodies will not die in our veins
