

Mandy Barnett, Ever True Evermore

Ever true evermore will I be
Ever constant my heart like the sea
Everlasting is my love
Like the sun that reigns above
And the stars that shine through all eternity

Ever true is the song that I sing
Evermore may the melody ring
And it's you the words are for
Words I never said before
I will be ever true evermore

Everlasting is my love
Like the sun that reigns above
And the stars that shine through all eternity

And it's you the words are for
Words I've never said before
I will be ever true evermore

Ever true evermore will I be
Ever constant my heart like the sea
Everlasting is my love
Like the sun that reigns above
And the stars that shine through all eternity

Ever true is the song that I sing
More and more may the melody ring
And it's you the words are for
Words I never said before
I will be ever true evermore
