

# Mandy Moore, Changed My Mind

(M.Moore/L.McKenna)

An unexpected phone call in an open afternoon  
I knew I'd love to get to know you  
But I thought it was too soon  
Deep in conversation I discovered so much more  
Than what I ever had expected on the way to bein' sure

CHORUS:

I was alright  
I was gonna take my time  
'Til you turned around and changed my mind  
Something in the way you laughed  
That I could not resist  
I had giving in my eyes  
But "no" was on my list  
Sat on the edge that night

While I tried to explain  
Well, I remembered I was crying  
My love is just the same

CHORUS:

I guess I never put up a very big fight  
'Cause you won't have much trouble, baby  
Convincing me tonight  
Lay right down beside me  
And try to make me smile  
You know that part is easy  
It's the trust that took a while  
I see the world in every color  
And now that I've seen blue  
The change in me is subtle  
But it was long overdue

CHORUS:
