

# Mandy Moore, Few Days Down

It's a take-out weekend  
It's a fake-out smile and pretend  
If nobody sees you cry  
You can say it was raining outside

## CHORUS

And all that you want  
Is a few days down  
All that you need  
A little time to drown  
It's to be expected  
With all the weight you carry round  
All that you want is  
A Few Days Down

It's a short vacation  
To a foreign nation  
Oh, nothing familiar here  
Just you and your lonesome heart complaining

## CHORUS

I'm looking out  
Ten stories high  
And like a blanket lifted  
The quiet night  
The city finally waking up  
To the morning light

## CHORUS
