

Mandy Moore, Quit Breaking My Heart

You were my first slow dance
Thought that we had a chance
But together it was too hard for you
Hanging out with your friends
And I accepted things
All I need is for you to be true
I know you care
But it's just not fair
When you're not around I want you there
And I need you to stop breaking my heart...
Quit breaking my heart
It's tearing apart
All I need is for you to be true
Quit breaking my heart
It's tearing us apart
Baby quit breaking my heart
Baby I don't feel this way about everyone
Something about you boy
Nothing seems to be quite like this
Holding your hand
Touching my face
Standing here waiting for our first kiss
I know you care
But it's just not fair
When you're not around I want you there
And I need you to stop breaking my heart...
Quit breaking my heart
It's tearing apart
All I need is for you to be true
Quit breaking my heart
It's tearing us apart
Baby quit breaking my heart
Quit breaking my heart
I know you care
But it's just not fair
When you're not around I want you there
And I need you to stop breaking my heart...
Quit breaking my heart
It's tearing apart
All I need is for you to be true
Quit breaking my heart
It's tearing us apart
Baby quit breaking my heart
