

# Manfred Mann, Joybringer (From Jupiter)

I bring joy and I can take you through  
All those days when people seem to get to you  
I bring joy and I come here to you I bring life and I can take you where  
You can see and feel and breathe and touch the air  
I bring life and I can take you there Take your time, remember when you do  
There are days when people feel the same as you  
I bring time and I can take you through I bring joy and I can take you through  
All those days when people seem to get to you  
I bring joy and I come here to you
