

Manfred Mann's Earth Band, Joybringer

I bring joy and I can take you through
All those days when people seem to get to you
I bring joy and I come here to you

I bring life and I can take you where
You can see and feel and breathe and touch the air
I bring life and I can take you there

Feelings inside that we keep
Out of sight and out of reach
Brings us to the things we seek

Take your time, remember when you do
There are days when people feel the same as you
I bring time and I can take you through
