

# Manic Street Preachers, Slash N' Burn

You need your stars, even killers have prestige  
Access to a living you will not see  
24 boredom, I'm convicted instantly  
Gorgeous poverty of created needs

Slash and burn  
Kill to live  
Kill for kicks  
3rd world to the 1st  
Kill to live

Worms in the garden more real than a McDonalds  
Drain your blood and let the Exxon spill in  
Look around here, you see nothing is very real  
Chained to economy now famine has been

Slash and burn  
Kill to live  
Kill for kicks  
3rd world to the 1st  
Kill to live

That's all you need  
That's all you need  
That's all you need  
That's all you need

Madonna drinks Coke and so you can too  
Taste's real good not like a sweet poison should  
Too much comfort to get decadent  
Politics here's death and God is safer sex

Slash and burn  
Kill to live  
Kill for kicks  
3rd world to the 1st  
Kill to live  
Kill for kicks

Slash and burn  
Kill to live  
Kill for kicks  
3rd world to the 1st  
Kill to live

That's all you need  
That's all you need  
That's all you need  
That's all you need
