

Mans Zelmerlow, Fire In The Rain

I remember you and me
Before we knew our destiny
Never walked the road before
Go alone to search for more
We put future on the line
I can say it's coz of you
Ypu showed the dream we walked into
We saw the danger on the way
But with you it seemed ok.

Coz when the evening comes
We're like fire in the rain
When the lights begun
My desire heals the pain
And the dreams we share
They are never gonna fade
It's because of love we're standing here today
We're like fire in the rain
Like fire in the rain

I remember every night
I gave my hope you gave your life
We can meant every scars
Just by looking at the stars
In my mirror I saw you
Everything I need to see
The reflection set me free

Coz when the evening comes
We're like fire in the rain
When the lights begun
My desire heals the pain
And the dreams we share
They are never gonna fade
It's because of love we're standing here today
We're like fire in the rain
Like fire in the rain
