

Mans Zelmerlow, Home

Gonna take my suitcase pack things right
Gotta find my way and do it today and not loose sight
I long for her touch and I long for her smile
I'll take the next flight back to be with my girl
I will pray say please and get on my knees she rules my world
I will give her all she ever wanted me to be
She'll see

Ooooo

I don't wanna stay here anymore

I just got to get home

I don't wanna miss your love, no more

I just got to get home

Without you I'm as lonely as can be

Tell me that you need me

I don't wanna stay here anymore

I just got to get home

Tried to close my eyes so I couldn't see

Tried to find a way to put it away- far from me

But a heart that's missing love can't live

No more

Oooooo

A lovers heart will never forget

Tell me that you need me
