

Mans Zelmerlow, I can be your friend

We are always close but still so far
From everything I want to start
Something just with you
And every time I try so hard to make you mine
I only end up crossing lines
You've drawn them through my mind
And I have waited patiently
Hoping things will change
I know that you will love me back someday
And I could be your friend
Say when you need one
Maybe I'm the rhyme inside your reasons
I could be your friend
Whenever you need me
I will be there
And I don't really care how much you use me
Just maybe just to touch you and seduce me
I will be your friend when you want me
I will be there
How long
How long can this charade go on?
Cause I can feel that this is wrong
I'm supposed to be with you
And I have waited patiently
The things that never change
I know that you will love me back someday
And I could be your friend
Say when you need one
Maybe I'm the rhyme inside your reasons
I could be your friend
Whenever you need me
I will be there
And I don't really care how much you use me
Just maybe just to touch you and seduce me
I will be your friend when you want me
I will be there
So won't you let me take your hand
I'll show you that I understand
Baby I keep hanging on to wipe your tears
But my love stays here
And I could be your friend
Say when you need one
Maybe I'm the rhyme inside your reasons
I could be your friend
Whenever you need me
I will be there
And I don't really care how much you use me
Just maybe just to touch you and seduce me
I will be your friend when you want me
I will be there
I will be there
I will be there
