

# Mansun, Electric Man (acoustic Version)

You were the seven deadly sins  
Making sense in your 'screw me' dress  
The beautiful ones just slip away  
To a mirror where we used to kiss  
With your disco heartbeat  
You're not even human  
We're so electric  
Do you have no passion?

Bring your sunshine to me, oh electric man  
Bring your sunshine to me, oh you're so electric man  
To me

Everything I touch  
Just falls to bits  
So trust in me  
It brings us close  
Electric man  
Will save our souls

Chorus:  
Bring your sunshine to me, oh electric man  
Bring your sunshine to me, oh you're so electric man  
To me

So I took advice and changed a little  
Hope that others like me more  
Hope that you would trust me once again  
Once again, once again  
I am lonely once again  
I hope that you would trust me once again

Chorus x2

Bring your sunshine to me, oh electric man  
Bring your sunshine to me, oh you're so electric man  
Bring your sunshine, bring it to me  
Sunshine, sunshine, bring it to me  
Bring it to me, bring it to me  
Bring it to me, bring it to me  
La, la la la, la la la la, la la, yeah yeah yeah yeah  
Ooh, the sunshine, bring it to me, yeah yeah yeah yeah yeah  
(repeats to fade)
