

Marc Almond, Law Of The Night

The law of the night

Give yourself to the heat
Sacrifice yourself to the beat
The rhythm of love
The beat of your heart
Don't follow the rules
This love can be cruel

Come on now
Oh yeah!

The law of the night...

It's the danger you love
The danger you feel
The fear is your fuel
Excitement is real
The joy of the ride
Your heart at the wheel
Is your mind in enough confusion?

Feeling so free
Is all that you know
Your hand on the gun
With no-one to know
And all your desires
Have nowhere to go
You're in need of a love transfusion

Give yourself to the heat
Sacrifice yourself to the beat
The rhythm of love
The beat of your heart
Don't follow the rules
This love can be cruel

And you're lost in a passion of fire
As you climb between shadow and light
Just a slave to the rules of desire
You surrender to the law of the night

The law of the night

The law of the night
Is fueling you on
The flick of the knife
The draw of the gun
The thrill of the ride

While still on the run
No time to think of tomorrow

The glamour of violence
Deep in your soul
Your hand at the wheel
With nowhere to go
You're taking a trip
You're out of control
It's time for a transformation

Give yourself to the heat
Sacrifice yourself to the beat

The rhythm of love
The beat of your heart
Don't follow the rules
This love can be cruel

And you're lost in a passion of fire
As you climb between shadow and light
Just a slave to the rules of desire
You surrender to the law of the night

Oh yeah!
Alright!
Give myself to the law of the night
Oh yeah!
Alright!
It's the law of the night!

Give yourself to the heat
Sacrifice yourself to the beat
The rhythm of love
The beat of your heart
Don't follow the rules
This love can be cruel

And you're lost in a passion of fire
As you climb between shadow and light
Just a slave to the rules of desire
You surrender to the law of the night

Give myself to the law of the night
I'm gonna give myself to the law of the night
I'm gonna give myself to the law of the night
I'm gonna give myself to the law of the night

I need a love transfusion
I need a love transfusion....
