

Marc Nelson, Time To Pay

She left me, now beg please for my heart
She's wants to come back to me
Now he's gone
you're alone

Time to pay 'cause you did me wrong
I was sittin' at a bar thinking
trying to catch myself
call me trippin'
she's loving somebody else
but I'm too cool
To let it get me down
'cause I knew one day
girl that you'll be back around

Chorus

I was workin' at a 9 to 5
While he was living large
I was bring the food to your home
He was giving fancy cars
Now he's telling you, you have to leave
sounds like the same thing you said to me
I'm not the only fool baby
Tell me why you're at my door
Why could you not sec before
tell me what it is he said
To make you come back to my bed
Now tell me what
No tell me girl
tell me why you're in my world
got to go, cannot stay
don't you know it's too late

Chorus

Bridge

I know you've been through many changes
and I can tell you've never loved someone before
but baby girl, I just can't take it
I want you back
but I've got to say it's over
