

Marco, It`s Not Over

Baby, can't you see me?
I'm waiting here in the crowd
What you do me cose I know I opened up your heart?
So, raise your mind, raise your soul
Release your feeling tonight
This will come again again on Friday night
I never let the music open up,

It's not over,
It's about the way you are
It's not over
I'm here to make you smile

Baby, won't you tempt me?
I'm on the run to the sound
Grove, I know it in back, just know I opened up your heart
So, raise your mind, raise your soul
Release your feeling tonight
This will come again again on Friday night
I never let the music open up,

It's not over,
It's about the way you are
It's not over
I'm here to make you smile
