

# Marduk, Those Of The Unlight

The nine

Blasting through the earth as a storm

Spreading their dark coldness

Evolved into creatures that existed at the edge

At the edge of this world and the realm of the shadows

Resisting death, yet unable to die

Magically clung to life

Forever dying but never dead

The nine - Those of the unlight

Frozen on the very brink's of death

Enslaved by the dark lord

Forever dying but never dead

The nine - Those of the unlight

A shadow of the great evil that prolonged his existence

A shadow creature - forever dying but never dead
