

# Margaret Glaspy, Female Brain

Don't be a dick  
I'm out here dodging stones and sticks  
Building a house brick by brick  
With both my hands in restraints  
While everybody points and stares at my female brain  
My female brain

There's no need to be rude  
Your life's an all inclusive cruise  
While I'm out here getting stiffed and screwed  
With both my hands in restraints  
While everybody points and stares at my female brain  
My female brain

You're gonna wanna sit  
I didn't prepare for this  
Are you Mrs or Miss?  
My name is Margaret  
Are you against or with?  
I'm first, second, third, fourth, fifth

I'm satisfied  
Eating scraps with delight  
I'll never give up the fight  
On suffering and pain  
Oh, using my gorgeous female brain  
My female brain  
My female brain  
My female brain  
My female brain
