

# Maria McKee, Can't Pull The Wool Down

I can feel you  
I can feel you, baby  
Smirkin' in the shadows  
And hopin' that I fall  
I remember when you loved me, baby  
I let you play the brave  
You made me feel so small  
Well, we're still fightin' though the same world  
You can tempt and try to coax me  
I will never be your girl again  
Walk that walk till you drop  
Cock your head an wear a crown  
But you can't pull the wool down  
Over the little lamb's eyes

You have no fear of failure  
You got the mirror, baby  
You've got a good tailor  
You have no fear  
You're not like everyone  
You're not afraid of losin'  
Or of being left alone  
That suit you're stuck in fits you to a tee  
But you're waltzin' 'round a land mine  
If you think you're bluffin' me  
Mumble through your cigarette  
Sympathize with every breath  
But you can't pull the wool down  
over the little lamb's eyes

Listen,  
You say you know how it feels, baby  
But you don't know what it's like  
And you can't pull the wool down  
over the little lamb's eyes

I've learned a little bit about being hard  
I can see you  
I can see you, baby  
Ever poised for some eternal snapshot  
Well, I know you  
You needn't worry, baby  
I won't blow your cover, I'll tell 'em what you got  
Well I know you, I know you baby,  
I won't blow your cover  
Don't sweat it out  
You can't pull the wool down  
Over the little lamb's eyes

No you can't...  
You wanna watch me bleed  
You've come to pick the bones clean  
But you can't bully me  
You better watch what you do...yeah
