

Maria McKee, I Forgive You

Oh my love, I have tried many times to convince myself
You'll never change, maybe I could be happy with someone else
But here you are at my door, baby let's end this crazy war
I forgive you, I forgive you baby, I forgive you

Chorus:

It's alright, I'll take you back again
I'll take the blame, you mean that much to me baby
I forgive you

Who would believe I would stand in the gap for this love affair
I've got my pride, but something broke inside when I saw you standin' there
You are the blood in my veins
Why do we cause each other pain
I forgive you, I forgive you, I forgive you

Chorus:

It's alright, I'll take you back again
I'll take the blame, I wouldn't lie to you
I forgive you

Bridge:

(Don't stand for abuse)
I gave him everything, what do I have to lose?
I know he hurts me, I hurt him, sometimes I don't deserve him
But he loves me, and I love him, and this is how we are...

Chorus

I can't stop this habit anyway
I can't stop this habit anyway
I can't stop it
I need it to breathe
Oh baby
