

Maria McKee, More Than A Heart Can Hold

It takes more love
Than a heart can hold
To move the water to the shore
It takes more power
Than a heart can beat
It's more than we see
Baby, bigger than we know
But when you touch my hand
I feel more than just a thrill
I feel the rush of the wind
That turns the world
There's more love than a heart can hold
More than the body, more than the soul
Baby, baby there's more,
More love than a heart can hold
Between us

When the day seems like night
Baby feel the rhythm of it movin' us along
And there's a place we have yet to touch
(Keep lookin' up) it's what we live for
But when you speak my name
All the legends of love
Come true poundin' with eternal drums
There's more love than a heart can hold
More than the body, more than the soul
Baby, baby there's more,
More love than a heart can hold
Between us
