

# Mariah Carey, Do You Think Of Me

Uhh haa ooh  
Doodoodoo  
Doodoodoo

I wonder if you think of me  
Somewhere in the shadows of your mind, ooh  
Although our love could never be  
I found I think about you all the time, ooh baby

Am I in your fantasies  
The way you always wander into mine, ooh  
Are you longing endlessly  
Just like me deep inside

Oh baby baby  
When the nights are dark and cold  
(Do you think of me, do you think of me)  
And when you're lying all alone  
(Do you think of me, do you think of me)  
When you feel the touch of another love  
(Do you think of me, do you think of me)  
Am I the one you're dreaming of  
(Do you think of me, do you think of me)

Uuuuuh  
I picture you embracing me  
We drift away and leave the world behind, baby  
But it's only make-believe  
Love can be  
So unkind

Oh baby baby baby  
When the nights are dark and cold  
(Do you think of me, do you think of me)  
When you're lying all alone  
(Do you think of me, do you think of me)  
When you feel the touch of another love  
(Do you think of me, do you think of me)  
Am I the one you're dreaming of  
(Do you think of me, do you think of me)

Oh  
Hey  
Tell me baby (tell me baby)  
'Cause I need you, baby ('cause I need you, baby)  
Really love you baby  
Oh  
Hey

And ooooh  
When the nights are dark and cold  
(Do you think of me, do you think of me)  
And when you're lying all alone  
(Do you think of me, do you think of me)  
When you feel the touch of another love  
(Do you think of me, do you think of me)  
Am I the one you're dreaming of  
(Do you think of me, do you think of me)

When the nights are dark and cold  
(Do you think of me, do you think of me)  
And when you're lying all alone, baby  
(Do you think of me, do you think of me)  
When you feel the touch of another love

(Do you think of me, do you think of me)  
Am I the one you're dreaming of  
(Do you think of me, do you think of me)

'Cause I think about you, baby  
I'm lying here alone yeah  
I think of you, yes I do
