

Marie Fredriksson, I Want to Go

i came to bring you the news
and this the way my song goes
everything must be done
down on the country farm
just make me wanna go
sleeping here behind the wall
and being treated just like a dog
just make me wanna go

where I go, I don't know
my people in here and I don't care where I go

hey there little old boy
sit down on my knee
I just wanna tell you
how you been sending me
just make me wanna go
down on the count farm
people, this is a natural fact
eleven foot cotton sack
hanging heavy down on the back
just make me wanna go
