

# Marika, What's ya flava

Tell me what's ya flava x3

ref.

Tell me darling what's ya flava  
'couse your o'clock is strange  
That I could be the only one for you  
tell me if you want to touch me  
or even try to kiss me  
'couse that is what I also want to do  
First time I met you boy  
I could see it in your eyes  
you first summed it but you couldn't help  
but you thought it wasn't right, yeah  
Then you started to undestand  
that a young man over crime  
Now that you with me will feel  
you join love so divine

ref. x2

Yes I know, that it can be hard  
to get alone day by day  
there are times when I kick you out  
times that I beg you to stay  
very easy to fall in love  
very hard to live together  
please take me as I am  
I would love you now and forever forever  
And I give you my soul, yeah  
[what's ya flava what's ya flava]  
a true love as I told ya  
[what's ya flava what's ya flava]  
you know that we will live together  
[what's ya flava what's ya flava]  
so that please change your behavior
