Marillion, Icon

(Hogarth/Kelly/Mosley/Rothery/Trewavas)

Even if the good old days were good Even if the old days were golden days Even if the good old days were good The past is a terrible place The past is a terrible place to live Misguided missiles Skin creams and cars Loaded with dreams Loaded with dreams

Computer games Pretty faces Loaded with life Loaded with live ammunition

Even if the good old days were good The past is a terrible place The past is a terrible place to live

Saving up for Linda Saving up for Pam Saving up for Naomi Icon therefore I am Saving up for Mary Saving up for Jane A thousand pieces all over the room Let's do it all again Icon therefore I am

Loaded with dreams Loaded with life I'm loaded with live ammunition Loaded with dreams Loaded with stories Loaded with life

I only wish I knew you How hard it is for me to spare This kind of thing for you If you sense a smokescreen here A trick of dry ice A trick of the dry eyes
