

# Marilyn Manson, Astonishing Panorama Of The E

The boy's got a head like an atom bomb  
Hang him from a cross like the number one son  
And he's been waiting so long  
To get it on

The boy's 15 but he's 16 gauge  
Wants to break out from his Jesus cage  
He's already torn out the last page  
It's the 'latest rage'

(Chorus x2)  
Violence for the people  
They always eat the hand that bleeds  
Violence for the people  
Give the kids what they need  
Kill your God, kill your God  
Kill your TV

The boy's purified by the quitter gods  
Burning up his cross like a revelation (revelation)  
And his glass jaw opens  
Like a puppet head

(Chorus x2)

This is what you should fear  
You are what you should fear  
(x7)

(Chorus)

Kill your God  
Kill your TV  
(x4)
