Doll-dagga buzz-zuzz ziggety-zag
Godmod grotesk burlesk drug
All the goose-step girlies with
Their cursive faces and
We know it's all Braille beneath the skirt
I'm bulletproof bizzop and
Swing hell and
I don't really care what gentlemen prefer.
Say, all you pin-down girls and
Bonafide balers, so manically depressed
And manically dressed
We got our "Venus Not In Furs"
But "In Uniforms";
If You're not dancing, then you're dead.

All the thug rock kids are playin'
All the punk god angels sayin'
"The toys are us, and we don't even know"
All the thug rock kids are playin'
All the punk god angels sayin'
"The toys are us, and we don't even know"
GO GO GO - doppelngers
(You're one of us, you're on of us)
GO GO GO - throw your shapes doppelngers
You're one of us.
Trumpet-mouth junky-saints go
Silver-tongue marching down the
Stairway to SUBSTANCE.
Cocaingels and asses
Give me opiate masses
Fill up your church porn preachers
And we'll fill up our glasses.
