

# Marilyn Manson, IV TV

The light's a game that changed our name  
Made our lives this simple stain  
Drove the children from their chores  
Handcrafted housewives into whores  
So sly the snake, it ate our brains  
Injecting poison in our veins  
TV-mind hints with rhymes  
Your face is cracked and filled with lines  
Made our lives this simple stain  
Intravenous TV feast  
Petra-violence is all he sees  
Ride the lightning to the sky  
Smack the clouds and watch them cry  
The light's a game that changed our name  
Made our lives this simple stain  
All we do is fight  
For what we think is right  
Sound that might be wrecked of sight  
Denial taking human life  
The clouds go by the children run  
'Cuze there's no stars in the sun  
Water falling from the spout  
Into wanting thirsty mouths  
The light's a game that changed our name  
Made our lives this simple stain  
Made our lives this simple stain  
Made our lives this simple stain  
All we do is fight  
For what we think is right  
Sound that might be wrecked of sight  
Denial taking human life  
All we do is fight  
For what we think is right  
Sound that might be wrecked of sight  
Endless blinding cathode light
