

Marilyn Manson, Pretty as a Swastika

When I see you in the sun you're as pretty as a swastika

Take you down, down from the inside

Take you down, down from the inside

I want to smash into your face,

like a plane,

and drown in between your legs

Take you down, down from the inside

Take you down, down from the inside

I'd die for your sins

if you don't kill me while I'm trying, baby

Let me show you where it hurts

Let me show you where it hurts

Let me show you where it hurts

There's more than one way, to make you cry

When I see you in the sun you're as pretty as a swastika

When I see you in the sun you're as pretty as a swastika

Take you down, down from the inside

Take you down, down from the inside

One of us is a knife

One of us is ripe, baby

Let me show you where it hurts
