

# Mario, How Could You

(Verse)

It's kind of crazy babe, how I remember things (like where you came from and how you had nothing)  
I went and made you fly, put extras on your ride (didn't miss a birthday now you can't even remember)  
You made it clear to me (you wasn't down for me)  
(Love made me blind baby) but now I see  
(you had things up your sleeve, don't even lie to me)  
I even heard it from your family

(Chorus)

How could you let somebody lay where I laid?  
How could you give him everything that we made?  
How could you call him all the names that you used to call me?  
How could you, How Could You just forget about me?  
How could you teach him all the things I taught you?  
How could you put him up to the Ghetto Kamasutra?  
How could you put me in the back and give him the front seat?  
How could you, How Could You just forget about me?

(Verse)

You must be out your mind,  
You got alot of nerve (to think that I'm going chill after at the shit I heard)  
I damn near carried you, I could've married you  
Good thing I found out before I bought that 7 karat for you,  
(I know your sick about) The way I found you out  
(Go head and pack, get out) I hope he's got room at his house  
You should have thought of me before you hopped in the sheets  
Damn I can't believe that you did this to me, baby

(Chorus)

(Bridge)

Girl I tried to give you everything,  
Can't believe the ways you repaid me,  
Girl you had it all, but I guess my all wasn't good enough for you,  
I've accepted it, and I ain't gone trip, girl I'm movin on  
Sometimes I can't help but think that another man's gonna get the one that is made for me, Ooooo

(Chorus)

(How could you)

How could you how could you just go and lay there,  
How could you how could give him everything (How could you)  
How could you how could you call him names like that (oooooooooooo)  
How could you baby?  
How could you baby? (How could you)  
How could you how could you teach him everything?  
How could you how could you put him to the ghetto kamasutra?
