

Marion, Is That So?

Look at my face
Do I look as though I still need you
There's a time
And a place
And it's neither
Now what can you do
Something's happening
And the same thing will
Happen to everybody
Now I need some space
'cos I just don't see how we can go on
Now if I wanted
All I needed
I'd be doing fine
I look at your face
I can see I'm not the flavour today
I will try and keep with your pace
But I'm scared the only one left
Will be me
Sight right out of phase
Soon to be coming down
I will always find a way
Of bringing these things that
Fuck up my day
Something's happening
And the same thing will
Happen to everybody
Now I need some space
'cos I just don't see how we can go on
Now if I wanted
All I needed
I'd be doing fine
Now if I wanted
All I needed
I'd be doing fine
Don't look at my face
I've seen you doing it to people you hate
Something's happening
And the same thing will
Happen to everybody
Now I need some space
'cos I just don't see how we can go on
Now if I wanted
All I needed
I'd be doing fine
Now if I wanted
All I needed
I'd be doing fine
Would be doing
Would be doing fine
