

Marion, Let's All Go Together

Oh Was it something I said
Was it something I, I didn't do
Well you invaded my head
And you tried to make me, make me think like you
It's hard for you
They don't understand your life's an exam
And you need something
It's hard for you
And they don't understand you were miles from the ground
When you needed someone
Will you listen to me
I know your skin and eyes
Aren't what they should be
For god's sake realise
It's not your shell they'll love
It's the smile inside
It's hard for you
They don't understand your life's an exam
And you need something
It's hard for you
And they don't understand you were miles from the ground
When you needed someone
Was it painful, oh
Did it hurt you, oh
Lets all go together
You can't listen, oh
Or you'll go missing, oh
Let's all go together
It's hard for you
They don't understand your life's an exam
And you need something
It's hard for you
And they don't understand you were miles from the ground
When you needed someone
It's hard (for you)
It's hard (when you need something)
It's hard (for you)
It's hard (when you need something)
