

Marion Raven, There I Said It

My every breath I take for you
My every heartbeat is a drum that beats for two
And I believe we're meant to be
Is what he told me
what he told me

You always made sure I was near
You always took the time to take away my fears
You carved my name into a tree
I guess you fooled me
Yeah you fooled me

These are the words you told me
These are the things you did to make me feel at ease
I damn the day that I met you
There I said it
There I said it yeah

I accidentally got to read
A secret message to a friend about me
You lost the bet, I proved you wrong
I won't forgive you
I want to kill you

These are the words you told me
These are the things you did to make me feel at ease
I damn the day that I met you
There I said it
There you have it

I don't care no more
But you don't have to worry, I'm gonna let you be
Cuz you're nothing to me

You decorated me with scars
Yeah you honoured me with a purple heart

These are the words you told me
These are the things you did to make me feel at ease
There I said it
There you have it
Are the words you told me
I damn the day that I met you
There I said it
