

Marius Nedelcu, You know I loved You

Where do I go?
What do I do?
Where do I find?
Somebody like you
Ill miss your touch
Ill miss your smile
Please dont cry
Im leaving you although I know it hurts so much
To give you one last kiss
To leave you here like this
I know it hurts so much
It breaks my heart in two
These words are mine for you
No matter what people told you
You know that I loved you
I did and I still do
Wherever destiny takes you
Ill always protect you
You know I always do
(You know I love you)
My memories
All of my dreams
I packed them all
Was not meant to be
A perfect life
A simple call
A fairytale
Im leaving you although I know it hurts so much
To give you one last kiss
To leave you here like this
I know it hurts so much
It breaks my heart in two
These words are mine for you
