

Marjorie Fair, Don't Believe

Don't believe a word they say
they're only there to take you away
Don't believe a word they say
they're only trying to take you away

It only feels this way
It only feels this way
that's what I tell myself

Don't believe a word they say
they're only there to scare you away
Don't believe a word they say
they're only trying to scare you away

It only feels this way
It only feels this way
that's what I tell myself

It only feels this way
It only feels this way
that's what I tell myself
that's what I tell myself
that's what I tell myself
that's what I tell myself
that's what I tell myself
