

Mark Knopfler, No Wonder He's Confused

Well, he's got to be assertive
But never dominate
But he's got to be receptive
He understand he must relay
And if you get too much protection
You feel your freedom is abused
Well he is everything you're looking for, baby
No wonder he's confused

He can thrill you like a stranger
He can fill your fantasy
You want an element of danger
But you want security
Your love is thrill and dedication
He is good at keeping you amused
Well he is everything you're looking for
No wonder he's confused

It takes a little understanding
When you love each other so
You got the right to be demanding
But how is he supposed to know

Well, sometime you want a rebel
Sometime you want a steady hand
You play the handsome devil
Play the boy, play the man
And if you take the wrong direction
Is he gonna be accused
He is not everything you're looking for
No wonder he is confused
Yeah, he is not everything you're looking for
No wonder he is confused
