

# Mark Lind, I'll Be Around

Nights, they say, are so low  
And the days seem to long  
They tell you time heals all  
So you just gotta be strong  
Things are changing and you're alone  
When it seems like a true friend can't be found  
I'll be around  
We've been around and around  
And no solution was found  
I still recall the times that we had and the times that we shared  
It wasn't all bad  
Things are changing and you're alone  
When it seems like a true friend can't be found  
I'll be around  
I just can't hold the line anymore  
Nights, they say, are so low  
And the days seem to long  
They tell you time heals all  
So you just gotta be strong  
Things are changing and you're alone  
When it seems like a true friend can't be found  
I'll be around
