

Mark Pritchard, Beautiful People (ft. Thom Yorke)

I'll smile carefully
Beautiful people
You know you're there
I'll smile careful
We can't go back
To know you're there
[?] careful

'till the love is ours
'till the love is ours
A flap of the wings
And the chaos that it brings

I killed my love
Please come to see
To lose no time

'till the light goes off
'till the light goes off
Flies out of the window
But angel stroke your head
To know you're there
I can't go back

In the morning light /3x

I'll smile careful
Beautiful people
To kill for most
In the morning light
To lose your goal
I'll smile careful
To know you're there
In the morning light
And now I am fearful

In the morning light
To the faces I fly
To know you're there
We can't go back

I planned everything /2x
I'll smile careful
If I had to go /2x
To lose yourself
