

Markus, Superlove

One love
One love
I believe in love

Why
I don't know why
I let you go
I let you take the morning train
Leave me alone
My broken heart
Tell me why

I don't know why
I let you go
Can't stop
You fill my heart again
Kissing your lips
Whispering love
I love you

One love
Is still in my mind
One love
And it's burning inside
One love
I believe in love
Loving you
Loving you
One love
Is still in my mind
One love
And it's burning inside
One love
I believe in love
Loving you
Loving you

Why
I don't know why
After so long
And you're so far away from me

And all around
There's only dark
Where are you

After so long
Feel deep inside
Ohh stay together
Was so good

Baby c'mon
I just wanna say
I love you

One love
Is still in my mind
One love
And it's burning inside
One love
I believe in love
Loving you
Loving you
One love

Is still in my mind
One love
And it's burning inside
One love
I believe in love
Loving you
Loving you
