

Marques Houston, Circle

[Intro: Whisper]

Yeah...

You know what's funny?

Seems like every time I try to forget about you,

My feelings pull me back in.

You see, it's crazy,

'Cause I got somebody else,

You got somebody else.

But you and I both know,

That it really is...

But still,

You know what I'm saying, B?

[Marques Houston: Speaking]

Ran Across A Picture You Took Of Me

And It Got Me Thinking

Of How It Used To Be When It Was Just U And Me

Still When U Say U Love Me Put No One Else Above Me

Well It Was Back Then Now You're Just A Memory

If I Didn't Go Away For Skool Then Where Would We Be

Probably Still Together And Somewhere Happy.

If I'm Suppose To Be Moved On In A New Relationship Strong,

Then Why Are You Still Hauntin' Me?

[Chorus:]

They say...

If you love something, then let go,

And if it comes back then that's how you know.

I got to the stop light then I made four rights.

Now I'm back where I started,

And you're back in my life.

The farther I go the closer I get back to you

I say I moved on,

Til' I'm reminded of you.

Can somebody help me?

help me get out of this circle (out of this circle).

I drove past your house the other day,

I didn't even mean to,

I went the wrong way.

I aint seen your mama in a while.

When she looked at me, she smiled,

And asked me if I'm doing okay.

Took everything I have,

Not to bring up your name

And wonder if you came home for the holidays, yeah...

She asked if I could stay awhile,

Cause you had come in town,

And you were just five minutes away.

[Chorus:]

If you love something, let it go,

And if it comes back then that's how you know.

I got to the stop light then I made four rights.

Now I'm back where I started,

And you're back in my life.

The farther I go the closer I get back to you,

I say I moved on,

Til' I'm reminded of you.

Can somebody help me?

help me get out of this circle (out of this circle).

To anybody who's listening to this,

If you got the person that makes you wonder what if,

Let me hear you say yeah (yeah),
Say yeah (yeah)...
Say yeah (yeah)...
Oh yeah (oh yeah)...
If you understand how I feel,
Then grab that person now to let her know what's real.
Let me hear you say yeah (yeah),
Yeah (yeah)...
Yeah, hey...

[Chorus:]
If you love something, let it go,
And if it comes back then that's how you know.
I got to the stop light then I made four rights.
Now I'm back where I started,
And you're back in my life.
The father I go the closer I get back to you.
I say I moved on,
Til' I'm reminded of you.
Can somebody help me?
help me get out of this circle (out of this circle).
