

Marques Houston, Excited

[verse 1:]

I wish that I could explain it, just why my heart won't slow down
Girl your body so amazing, tryna chill but I don't know how
Call me crazy but I know it's love is what I'm feelin'
Just one simple touch is more then enough to get me goin'

[Chorus:]

Something about you gets me so excited
When I'm around you, I just cannot hide it
Try to hold myself, but I just can't fight it
One look in your eyes and baby I'm excited

[verse 2:]

Say it's the way you move, your smile, your hair (everything about you)
To feel your kiss it makes it worth (what I gotta go through)
Said I'm bugging out everytime we hangin'out
Cuz it's in my mind so bad I wanna lay you down
Got me trippin, flippin'plans around (So I can chill with you)
Baby listen here can't hold it back gotta (know what I gotta do)

[Chorus:]

Something about you gets me so excited
When I'm around you, I just cannot hide it
Try to hold myself, but I just can't fight it
One look in your eyes and baby I'm excited

[Bridge: x4]

Look at me it's clear to see
its you and me
Just wan't to make you scream

Let me make you scream

[Chorus:]

Something about you gets me so excited
When I'm around you, I just cannot hide it
Try to hold myself, but I just can't fight it
One look in your eyes and baby I'm excited

[verse 3:]

I'm so excited
oooooh

and I just cannot hide it (no no)
